

Anti-DENTT Protein Polyclonal Antibody

Catalog Number:	24261
Lot Number:	51132
Quantity:	100 µg in 100 µl (1 mg/ml) in PBS containing 0.02% sodium azide.
Description:	A novel gene, differentially expressed nucleolar TGF-beta1 target (DENTT), is expressed in several normal human tissues, with the highest level of expression in brain. It is involved in TGF-beta1-mediated responses and has distinct domains for direction to different subnuclear locations.
Host Species:	Rabbit
Specificity:	Reacts with the residues 489-503 [NNETTDNNE SADDHE] of the human DENTT protein.
Applications:	Western blot – Use at 1:500 to 1:1,000 dilution. However, the investigator should determine the optimal dilution for a specific application.
Format:	Affinity purified IgG
Storage:	Maintain at +2-8°C for 3 months or at -20°C for longer periods. Stable for 1 year. Avoid repeated freeze-thaw cycles.
